Affidavit of Zoning Setbacks – City of Paris Zoning Ordinance -Title 11- of the City of Paris Municipal Code

Setbacks are measured from property lines or street right-of-way lines (location of lot's corner pins) and NOT from the edge of pavement, or back of curb, etc. Use special care on lots with curved property lines to ensure that the curvature of the setback is considered. If in doubt of the location of corner pins, it is recommended that you have a surveyor locate the property lines.

I, the undersigned, hereby swear or affirm that I am applying for a building permit from the Building Department for the City of Paris, TN, and that I understand the Zoning Code (attached) that pertains to: ZONE: _____

REQUIRED SETBACKS FOR LOT: Front: _____ Back: _____ Side: _____

I understand that it is my responsibility to make sure that the building is within the proper setback. I understand that if any portion of the building is violating the setback requirements, I will be made to remove that portion in violation.
